

GLOBAL EDUCATION LAB

Education to make the world work

DATE: October 24, 2009

TIME: 9:00 am to 4:00 pm

HOST: University of Pennsylvania National Resource Centers

South Asia Center • African Studies Center • Center for East Asian Studies • Middle East Center

THE GLOBAL EDUCATION LAB is an information-packed full-day program on global education for teachers and administrators. The Lab is a hands-on intensive that provides you with everything from global perspectives to lesson plans and supplementary materials for the next day's classroom—delivered by educators with over 60 years of global education experience.

THE PURPOSE

of the Global Education Lab is to provide teachers and administrators with the information and experience they need to establish a new global education program, deepen and enrich existing programs, and to provide an inspiring and invigorating intellectual experience.

DELIVERABLES

- Continuing professional development credits.
- A DVD packed with over **\$1,000 worth** of the latest books and reports from the UN and dozens of other international agencies on the state of the world, energy, climate, food, water, economy, population, education, health and other topics.
- Plus an additional set of global education materials on assessment, global service learning, lesson plans, curricula, & over 15 short **global education related movies**.
- **Real Lives 2010**, the brand new version of the award winning software that allows your students to live a life in any country in the world. See www.educationalsimulations.com for exciting details on what you can do with this program.
- Ten **global education classroom activities** you can do the next day at your school.

COST AND SCHEDULING

Cost of attending the Global Education Lab is \$195 for one educator, or \$185 for two or more from the same school. For school districts and other educational groupings of 10 to 25 or more teachers the tuition cost is \$180 for each participant. Partial scholarships are available in special circumstances. To schedule a Global Education Lab for your school or district, call 610-566-0156 or email info@globaledworks.com.

ABOUT US

The Global Education Lab is a joint program of BigPictureSmallWorld [www.bigpicturesmallworld.com, 610.566.0156, info@bigpicturesmallworld.com] and Global Education Motivators [www.gem-ngo.org, 215.248.1150, gem@chc.edu]. Programs are delivered by Wayne Jacoby, a 31-year social studies teacher and global education pioneer, and Medard Gabel, developer of the World Game (with Buckminster Fuller), and other global education simulations and curricular materials. Together they have been involved with global education for over 60 years.
